

Dr. Eva Andrijcic
Assistant Professor
Department of Engineering Management
Rose-Hulman Institute of Technology

To Whom It May Concern,

I served as the General Chair of the 2019 Systems and Information Engineering Design Symposium (SIEDS '19) which took place on Friday, April 26th 2019 in Charlottesville, VA, USA. I am writing this letter to confirm that Augusto Garcia Fabbri from Brazil presented a paper titled "Modeling and Simulating Enterprise Architecture Activities Using a Non Preemptive Multiprocessing System" at the conference. The full conference program and schedule, as well as a link to Mr. Fabbri's paper can be found at: <https://edas.info/p25718>.

Sincerely,

Eva Andrijcic
